GUDE GAMES is proud to announce *Flying Dragons from Mars* - a new and electrifying physics game.

The premise of the game is simple: challenge and fun.

Players help fireflies to defend the planet Earth from flying dragons invasion, darting the fireflies in the direction of dragons to eliminate them, but carefully, avoiding obstacles and bombs.

The game offers 60 different levels in beautiful high-definition graphics and a cool sound, and a bonus level in a wonderful under sea scenario. Score can be shared with friends in a social network.

Flying Dragons from Mars is now available for \$0.99 in the U.S. and is priced accordingly in other regions. *Flying Dragons From Mars* is available world-wide from Apple's App Store for iPhone, iPod touch and Ipad.

A free version with 15 levels is also available in Apple's App Store.

"We work to bring challenging, engaging and content-rich games to mobile platforms." said Armando Zampar Jr, owner of GUDE GAMES.

GUDE GAMES, an independent mobile game studio based out of Limeira, Sao Paulo, Brazil, had emerged as a game publisher in 2010 with the philosophy "create simple and fun games for everyone".
